 Plot No. 14/6, HSIIDC, Sector-31,
Faridabad, Haryana – 121003, India

INNOVATIVE & COLLABORATIVE

At APET, we deliver innovative pre-applied thread coatings, adhesives, and sealants, providing reliable, high-performance solutions for industrial fastening and sealing needs.

ABOUT US

Founded in 2012 in Faridabad, Haryana, Atul Preapplied Engineers & Traders (APET) has grown into a trusted name in **pre-applied thread locking** and **sealing solutions for industrial fasteners**. Guided by the expertise of **Er. Ramesh Kumar Pandey**, who brings over **27 years of industry experience**, APET combines **technical innovation** with **deep domain knowledge** to deliver **consistent and reliable fastening solutions**.

APET specializes in **pre-applied thread locking and sealing coatings for bolts and fasteners**, along with a **complete range of industrial adhesives and sealants**. We serve industries including fasteners, automotive, electronics, sheet metal, pumps & valves, and cable & wire harness manufacturing.

With **advanced facilities, strong global supplier partnerships**, and a **customer-first approach**, APET continues to **strengthen industries—one secure fastener at a time**.

POWERING INDUSTRIES WITH
STRONG BONDS

VISION

To become a leading provider of **pre-applied thread locking** and **sealing solutions for industrial fasteners** in India, delivering innovation, reliability, and performance that strengthen industries worldwide.

MISSION

- **Deliver globally recognized quality products** with precision and consistency
 - **Build lasting partnerships** with clients through trust, performance, and technical excellence
 - **Foster growth through innovation, skilled workforce development, and customer-centric service**
-

OUR CORE VALUES

- **Integrity** – Upholding the highest ethical and professional standards
 - **Quality** – Ensuring excellence and reliability in every batch we produce
 - **Customer Focus** – Understanding client needs and delivering tailored solutions
 - **Innovation** – Continuously improving our products, processes, and services
 - **Responsibility** – Accountable in every operation
-

PRODUCTS & SERVICES

At APET, we provide a wide range of **high-performance pre-applied thread coatings, industrial adhesives, and sealants**, engineered to meet the **diverse needs of modern industries**. Renowned for their **reliability, durability, and superior performance**, our solutions support **critical applications** across multiple sectors. Below is an overview of our **key products and services**.

PRE-APPLIED ADHESIVE & SEALANT SOLUTIONS

Pre-Applied Adhesive & Sealant – Ready-to-use coating for fasteners, reusable, flexible, eliminates worker dependency, with 4-year shelf life*.

INDUSTRIAL ADHESIVES

- **Thread Locking Adhesive** – Secures fasteners, prevents loosening from vibration
- **Cyanoacrylate Adhesive** – Fast-drying, high-strength bonding for plastics, ceramics & more
- **Instant Adhesive (Super Glue)** – Fast-setting, versatile adhesive for industrial and personal use
- **Electrical Adhesive Epoxy** – Ideal for electrical insulation & bonding with excellent adhesion and electrical properties
- **Metal Repairing Adhesive** – High-strength bonding for durable metal repairs
- **Hot Melt Glue Sticks** – Quick-setting adhesive for a wide range of applications
- **Structural Adhesive** – Heavy-duty bonding for maximum strength & stability
- **UV Adhesive** – Precision bonding cured under UV light

INDUSTRIAL SEALANTS

- **Flange Sealant** – Leak-proof sealing for flange joints in fluid & gas systems
- **Oil Sealant** – Prevents leaks in oil & fuel systems for optimal performance
- **Piping Thread Sealant** – Ensures secure, leak-free connections in piping systems
- **RTV Silicone Sealant** – Resistant to moisture, chemicals & extreme temperatures

CUSTOM SOLUTIONS

We also create **tailored adhesive and sealing solutions** for specific industry requirements, working closely with clients to ensure **optimal performance and reliability**.

OUR FACILITIES & EQUIPMENT

At **APET**, our manufacturing facility in **HSI IDC Sector-31, Faridabad** is well-equipped to ensure **efficient production and consistent quality**.

We operate with **mixing machines, coating machines, filling machines, and dedicated packing lines**, using **carefully sourced raw materials** to maintain **precision at every stage** of manufacturing.

Our **coating facility** is designed for **high-standard adhesive applications** and includes:

- **Semi-Automatic Coating Machines (2 units)**
- **Manual Coating Systems** for custom requirements
- **Mixing Unit for Homogenization**

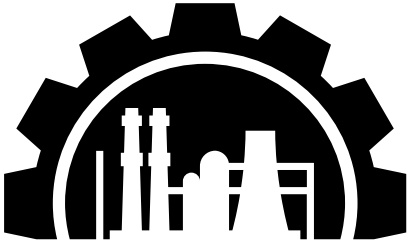

QUALITY TESTING & CONTROL

To ensure **reliability and durability**, every batch undergoes **in-house quality testing** before dispatch, including:

- **Torque Testing Facility (DIN 267)** for performance checks
- **Heat Aging Tests**, conducted as per customer or application requirements
- **Visual Inspection, Vernier Calipers & Weighing Scales** for precision checks

This process ensures all products meet the **exact specifications and requirements** of our customers.

INDUSTRIES WE SERVE

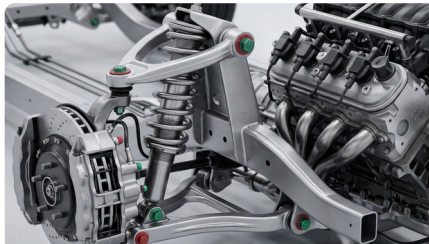

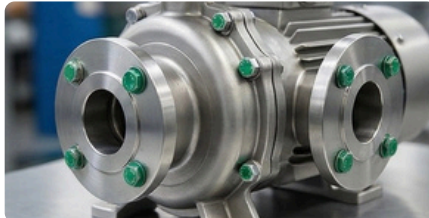

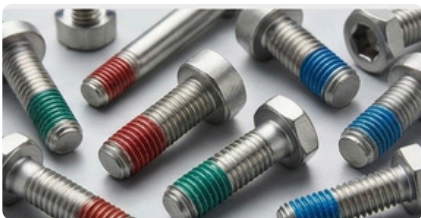

At APET, our versatile range of adhesives and sealants caters to diverse industrial applications.

We proudly serve:

- Fasteners & Hardware Manufacturing
- Electrical & Electronics Industry
- Sheet Metal & Fabrication Units
- Automotive & Engineering Components
- Pumps, Valves & Fluid Handling Equipment
- Electrical Panels & Switchgear
- General Industrial Maintenance & Assembly

Our solutions are designed for strength, durability, and reliability, meeting the high-performance demands of these industries.

CASE STUDY: PRE-APPLIED THREAD LOCKING & SEALING SOLUTION

Challenge:

Customer faced inconsistent torque, fastener loosening, leakage issues, and slow assembly due to liquid thread lockers.

Solution:

APET provided a customized pre-applied thread locking & sealing coating with controlled torque, vibration resistance, and ready-to-use fasteners.

Results:

- **30% faster assembly**
- **Zero leakage complaints**
- **Consistent torque performance**
- Cleaner & safer workplace
- **Improved product reliability**
- **Eliminates worker dependency**

Conclusion:

APET delivered a reliable precoat solution that improved efficiency and quality.

GLOBAL SOURCING PARTNERS & CUSTOMER COMMITMENT
